TRAINING EXPERIENCE

Web Development Trainee AlmaBetter

10/2023 - 5/2024

Bangalore(remote)

Skills: MERN Stack, CSS, JavaScript, Redux, DSA, Business Communication

Tasks

- Obtained practical expertise in both **front-end** and **back-end** languages and tools, like **React**, **Node.js**, and **MongoDB**, to build web applications.
- Built and deployed fully functional, responsive, full-stack web applications utilizing **MERN** stack with **authentication** and **best practices**.
- Demonstrated excellent performance with good communication skills, ranking in the **top 5%** in the cohort of **250** students.
- Helped other students with their projects and questions about the subject.

PROJECTS

FoodHub (Using HTML/CSS)

- AlmaBetter Verified Project.**
- Built and deployed a comprehensive Food Hub application from scratch, utilizing **Html** and **CSS** for the food delivery service.
- Implemented a **responsive user interface** means created or set up a user interface (UI) for a website or app. The UI adjusts and works well on different devices and screen sizes, like phones, tablets, and computers.

SignUp form (Using HTML/CSS/JS)

- AlmaBetter Verified Project.**
- Built and deployed a **responsive** signup form using **Html** for the structure of the form and **CSS** styling the form to make it look good, **JS** for adding validation to check if the input data is correct before submitting.
- Implemented **Regex** for validating the username, email and password.
- This setup provides a robust and efficient way to validate the signup form, ensuring that user inputs meet the required criteria.
- The signup validation process aims to verify user-provided information during registration to prevent unauthorized access and ensure data integrity.

ToDoApp (Using React.js)

- AlmaBetter Verified Project.**
- Built and deployed a responsive Todo List app using react.js here users can add, delete or add new tasks to the list.
- The Todo App is a simple task management application that helps you stay organized and focused by allowing you to manage your tasks efficiently
- Tools and Libraries:
 - React.js**: A JavaScript library for building user interfaces.
 - useState**: React hooks for managing state and side effects.
 - CSS**: For styling the components.
- Implemented responsive design practices, following a **mobile-first approach** for **optimal user experience** on various devices.

TECHNICAL SKILLS

Languages and Tools

HTML, CSS, JavaScript, Python, SQL

Libraries & Frameworks

React.js, Material-UI, Tailwind CSS, Redux Toolkit, Express.js, Node.js, MongoDB, MySQL.

Platforms

VS Code, Render, Netlify, Postman, Git, Github.

ACADEMIC PROJECT

AlmaBetter Verified Project.

Get YouTube Subscribers (05/2023 - 06/2023)

- Tags:** React js, Node.js, Express.js, MongoDB, Restful API.
- Designed and crafted a **RESTful API** capable of executing a range of GET requests.
- Enabled users to retrieve data based on diverse parameters.
- Utilized **Node.js** and **Express.js** for API development, with **MongoDB** serving as the storage and retrieval database.

CERTIFICATES

Multi-threading & Concurrency using java (06/2023)

Scaler Academy

Python (10/2023)

Scaler Academy

EDUCATION

BCA, Computer Science

IGNOU University, Delhi 

08/2019 - 12/2023

INTERESTS

Music

Cooking

Painting
