BCA, Computer Science

IGNOU University, Delhi

08/2019 - 12/2023

Inteímediate, Science (05/2019)

Suditi Global Academy (Mainpuñi)

High School (06/2017)

Suditi Global Academy (Mainpuñi)

PROJECTS

FoodHub (Using HTML/CSS)

- AlmaBetter Verified Project.**
- Built and deployed a comprehensive Food Hub application utilizing **Html** and **CSS** for the food delivery service.
- Implemented a **responsive user interface** means created or set up a user interface for a website or app. The UI adjusts and works well on different devices and screen sizes.

SignUp form (Using HTML/CSS/JS)

- AlmaBetter Verified Project.**
- Built and deployed a **responsive** signup form using **Html** for the structure of the form and **CSS** styling the form to make it look good, **JS** for adding validation to check if the input data is correct before submitting.
- Implemented **Regex** for validating the username, email and password.
- The signup validation process aims to verify user-provided information during registration to prevent unauthorized access and ensure data integrity.

ToDoApp (Using React.js)

- AlmaBetter Verified Project.**
- Built and deployed a responsive Todo List app using react.js here users can add, delete or add new tasks to the list.
- The Todo App is a simple task management application that helps you stay organized and focused by allowing you to manage your tasks efficiently

— ACADEMIC PROJECT

AlmaBetter Verified Project.

Get YouTube Subscribers (05/2024 - 06/2024)

- Tags:** React js, Node.js, Express.js, MongoDB, Restful API.
- Designed and crafted a **RESTful API** capable of executing a range of GET requests.
- Enabled users to retrieve data based on diverse parameters.
- Utilized **Node.js** and **Express.js** for API development, with **MongoDB** serving as the storage and retrieval database.
